Outside Micrometer with Heat Insulating Plate

102-301

Measuring range 0-25 mm

The classic, tried-and-tested analogue micrometer specialists from all branches trust in. Cut-away frame (on the anvil side) for measuring in spots that are difficult to reach. The ratchet stop ensures a constant measuring force.

No. 102-301

Listprice: ~~€ 48,-~~

€ 38,-

Dial Indicator, Flat Back

2044SB

Measuring range 0-5 mm, Graduation 0,01 mm

Equipped with limit hands and a bezel clamp. The carbide contact point, the 4-screw mounting of the bearing plate for increased impact resistance and the crystal's hard coating make the indicator extremely sturdy. An O-ring between bezel and crystal avoids water and oil penetration.

No. 2044SB

Listprice: ~~€ 60,-~~

€ 39,-

Digital ABS AOS Caliper

500-196-30/500-171-30

Measuring range 0-150 mm, switchable between metric and inch

An industry standard in measuring tools! A built-in ABS (absolute) scale means that these calipers are ready to use immediately after power-on without origin resetting, regardless of the slider position. The 500 series calipers boast 18.000 hours of battery life. Available with (500-171-30) or without data output (500-196-30).

Application with U-WAVE (see below)

No. 500-196-30

Listprice: ~~€ 119,-~~

€ 85,-

No. 500-171-3

Listprice: ~~€ 145,-~~

€ 115,-

U-WAVE – Measurement Data Wireless Communication System

It allows easy data transmission from a Digimatic instrument with data output straight to Microsoft® Excel® or other SPC applications, using the bundled data interface software. Up to 100 transmitters (U-WAVE-T) can be connected to one receiver (U-WAVE-R) over a distance of up to approx. 20 m indoor communication (approx. 50 m outdoor). 400.000 data transmissions with a single battery. Please order connecting cable and holder separately.

U-WAVE-R
